Highly Durable

Quiet Operation

 **STANDARD**

personal

Personal/Small Office Shredders

Standard's personal desk-side shredders are quiet, compact and durable. Each is designed for the document security needs of a home or administrative office and include the convenience of an integrated opening to dispose of non-confidential waste.

2010 S

Our most compact shredder, with a built-in three-gallon waste bin.

2020 S 2020 X

The 2020 Shredders feature an automatic on/off and built-in 6 1/2-gallon waste bin.

2030 S 2030 X

2030 Shredders include removable waste bag and automatic on/off for hands free operation.

high-security

High-Security Shredders

Standard's Level 5 Security Shredders exceed the NSA's standards for Top Secret, COMSEC, INFOSEC, CRYPTOLOGIC, and SCI. They are a perfect fit for any agency that wishes to maintain high reliability along with high-security shredding. All Standard Level 5 Security Shredders shred to a particle size of 1/32" X 7/16".

3020 X⁵

The smallest in the high security line. Includes auto on/off, bag full auto off.

3030 X⁵

Console office shredder on casters for portability. Includes auto on/off, bag full auto off.

3080 X⁵

Includes auto on/off, bag full auto off, automatic reverse and a single tier forms rack.

4030 X⁵

Standard's fastest high security shredder that shreds at a speed of 57 feet per minute.

4040 X⁵

Includes a powerful continuous duty motor to handle heavy high security workloads.

Office Shredders

The Standard line of Office Shredder meets the document security requirements for most office applications requiring greater speed and capacity than offered by our personal line of shredders. Included, as a standard feature on each of these models is an automatic shut-off control that detects when the removable waste bag is filled. Improve your document security by placing a Standard Office shredder next to a copier or printer and help prevent leaks before they can happen. Disposing of documents securely ensures that your information remains confidential.

3020 S 3020X

Designed for higher-volume personal use or the small office, the 3020 compact like the 2030 models but with increased sheet capacity.

3030 S 3030 X 3030X⁴

These 10-gallon capacity shredders come on casters to be moved, as your office needs change. They are also available as cross cut security level 4.

3050 S 3050X

Higher capacity feed width, sheet input and waste capacity. The 3050 shredders are economical console type shredders.

Centralized Shredders

Consideration of the level of security, multiple users, EDP/continuous forms usage and overall shredding volumes are important factors when deciding the optimal centralized shredder model. Designed with 16" feed width and a minimum 35 gallon waste capacity, Standard's Departmental Shredders are made to serve high volume shredding applications often across multiple departments. Their speed, sheet capacity, shred size and ease of use make them ideally suited to play an important role in maintaining office information security.

4010 S

Built on a strong, open metal stand, this shredder is rated for continuous forms up to 16" wide at a rate of 80 feet per minute.

4020 S 4030 S

Console units on casters the 4020 and 4030 shredders include 35-gallon waste capacity and automatic shutdown when the waste bag fills.

4040 S 4040 X 4040 X⁴

Higher capacity feed width, sheet input and waste capacity. The 3050 shredders are economical console type shredders.

Choosing a Shredder That's Right for You

When choosing a Standard shredder, be sure to ask yourself several questions.

1. What level of security is necessary.
2. What are you shredding?
Is it paper, card stock, computer printouts?
3. How much do you anticipate shredding each day?

Once you've come to a clear understanding of your shredder expectations, it's easy to choose the right Standard shredder.

Industrial Shredders

Each Standard Industrial Shredder is designed to efficiently handle the highest-volume shredding application. With all-steel construction, durable high quality cutting heads, easy control access and reliable trouble-free operation you can be confident in choosing any one of the Standard industrial models for your document security requirements.

5020 S 5020 X

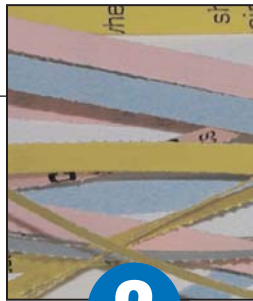

Sturdy, steel framed units, feature high capacity hopper feed and three folding forms shelves.

5030 S 5030X

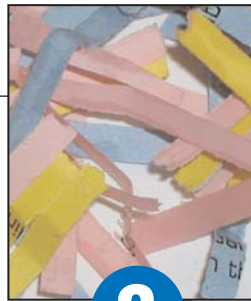

For centralized shredding applications. The 5030 shredders are conveyor feed models with a large work-table and can feed forms and sheets up to 16" wide.
